

Master of Science in European Economy and Business Law

AIMS

Globalisation of the productive and financial system has become a structural feature of the world economy that resists the protectionist winds pushed by the recession. International economic relationships are experiencing the effects of drastic changes driven by inventions in ICT and so are the strategies and actual behaviour of operators. This is a new reality to which the recent creation of the European Economic and Monetary Union and its process of enlargement have contributed, but also to which it must rapidly adapt by constantly changing its perimeter of action. In this new “scenario”, the demand for skilled professionals in the public and private sector, technically qualified in economic, financial and regulatory policies in the context of European and international affairs, is growing day by day.

COURSE DESCRIPTION AND CAREER PROSPECT

This Master of Science programme intends to train students to work with a competitive advantage in the field of economics and European institutions management, by providing special focus on economics, law, organisation, political sciences and history. It also provides tools and fundamental models to understand the European institutional system for an indepth insight of institutional players in the European Union.

The purpose of this two-year programme is to fulfill the demand for expertise which comes from:

National and local public administrations subject to European directives and recipient of resources from the European Union;

Firms which operate in the real and financial sectors of the economy, interested in the incentive and regulatory policies of the European Union;

International and European institutions with a focus on European affairs and directives.

ENTRY REQUIREMENTS

Selection

The selection process is based on the following documents:

- Summary of the online application

- Student record including exams passed and marks in the undergraduate as well as any other postgraduate programmes. Please include a table explaining the grading system used in the home university which indicates the minimum and maximum achievable scores.
- Curriculum Vitae of the applicant
- Motivation letter by the applicant in English
- Reference letter

N.B. Applicants are required to be fluent in spoken and written English. See website for selection criteria: <http://www.economia.uniroma2.it/master-science>

Admissions process

All applications are made online by uploading the required documentation. Once all the documentation is complete, the applicant will be contacted by the Admissions Office to confirm receipt and request further documents if required. Following the Admission Board's evaluation of the application, the applicant will be informed of the selection results. Non-EU applicants, EU nationals and EU-Equated citizens who are successful in this phase must then complete the re-enrolment procedures (see website for more information).

Pre-enrolment

Non-EU applicants who reside outside Italy need go to the competent Italian diplomatic authorities in their home country to complete the pre-enrolment procedures. Students are advised to contact the aforesaid authorities for detailed information.

EU nationals and EU-Equated citizens do not need a visa to study in Italy. However, they do need to contact the competent Italian diplomatic authorities for the issue of the legal translation and the legalisation of the qualification, which may take some time.

They must present their original study qualification/s and the related documents when they arrive in Italy in September.
