

SCHOOL OF MEDICINE AND SURGERY

THE DEGREE COURSE IN MEDICINE AND SURGERY in English

Our single-cycle degree course in Medicine and Surgery lasts six years. In order to graduate our students must earn 360 credits 60 of which are dedicated to specific professional training. The course is held in English. We expect to prepare our students for a competitive and international career.

The total number of seats is 25 per year (20 EU and 5 non-EU) to be assigned through a single IMAT (International Medical Admissions Test) session held contemporaneously at Rome Tor Vergata University and other test centres in the world (see list below), in collaboration with the Cambridge Assessment.

The evaluation is based on the last three years of studies before high school graduation. The subjects considered are: Language and Literature of the country of origin, one foreign language, Mathematics. The points are attributed only if a final grade is indicated for all subjects and if the grades reach sufficiency on the basis of each academic year.

Should these subjects not be part of the high school curricula, the average is calculated on the subjects actually taken only if all data and grades pertaining to the last three years of attendance are provided. The IMAT test lasts 90 minutes.

Tuition is based on the students' certified family income and does not include food nor accommodation; an additional annual fee of € 2,000.00 (two thousand) is also due as an extra contribution.

Scholarships are available from ADISU (see specific section).
