

# MSc BUSINESS CONSULTING & INFORMATION SYSTEMS MANAGEMENT

Programme taught in English at the Sophia Antipolis campus  
This MSc is accredited by the Conférence des Grandes Ecoles

**INTAKE:** September

*Created in response to the job market's need  
for graduates with these types of expertise*

## CAREER OPPORTUNITIES

- ▶ Consultant in information systems management
- ▶ Consultant in operations management
- ▶ Consultant in organisation
- ▶ Information systems auditor
- ▶ Project manager for information systems projects

## Programme outline

Jointly designed with SAP, EY (Ernst & Young), Amadeus, IBM and PMI France, the purpose of this programme is to train highly qualified professionals in consulting and information systems. Courses on SAP will be held on the premises of SAP Labs France at Sophia Antipolis. EY courses (leader on the French market for information systems auditing) will be taught by the firm's senior consultants and partners; they will address information systems audit, and the legal, tax and security aspects of these systems. Courses in project management will enable you to achieve a professional certification in project management.

## WHY CHOOSE THIS PROGRAMME

The content of this international programme has been defined by some of the world's most prominent players in consulting and in information systems. This course enables participants to prepare for professional certifications:

- ▶ PMI®: CAPM® or PMP®
- ▶ Change management for option BC
- ▶ SAP TERP 10 for option ISM

These three certifications, added to the quality of the training given by industrial experts from Ernst & Young, SAP, Amadeus and PMI France make this MSc a springboard for a professional career in this field. Finally, the MSc in Business Consulting & Information Systems Management benefits from the competitive, high-tech and international context of the Sophia Antipolis technology park. This environment provides preferential access to leading-edge businesses, consulting groups and industries.

- Amadeus
- Amaris
- Cap Gemini
- Inveny Consulting
- Microsoft
- MC2I
- Onepoint

*Vincent Petit - Partner EY (Ernst & Young)*

“

*The course is intended to be as pragmatic as possible and is largely taught by professionals from partner companies and international organisations (SAP, EY, Amadeus, PMI France-Sud, IBM). The most advanced knowledge possible in the field of information systems can thus be delivered, whether at the level of market leader SAP integrated software or methodologies for project management and information systems.*

*This training will make it possible to efficiently meet the requirements of companies and consultancies in the area of information systems, for integrated software suites, project management and information system auditing. After obtaining this master of science, students will thus be fully operational to work in these professional areas.”*

**Sharbani Sengupta, MSc Business Consulting & Information Systems Management 2015-16**

“

*Taking this MSc was undoubtedly my greatest decision.*

*The course structure is well adapted to match the needs and expectations of different industries and fits perfectly for students from both business and technical backgrounds.*

*Apart from the knowledge provided by excellent professors, this course also equips us with certifications like ITIL®, CAPM®/ PMP®, Change Management etc.*

*An exposure to working on real projects with companies broadens the professional network and opens a door to the corporate world.*

*A number of seminars with companies like SAP, EY, Amadeus etc. are conducted to help students build a pathway to securing jobs and internships. That's how I secured an internship with Amadeus within four and a half months of joining the course.”*
