## Can I enter a degree directly?

Yes, if you meet all the academic and English requirements, we can help you apply for direct admission to an ASU bachelor's or master's degree. Our education advisors are experts in the University's admission process and will provide valuable support during your application.

## What is transfer admission?

You can apply for transfer admission into Year 2 or 3 of a bachelor's degree if you have already studied at another university or college. Your existing undergraduate credit is evaluated for acceptance by ASU: you'll find out how many credits will transfer with your offer of admission. When you complete your bachelor's degree, it is awarded by ASU.

## What is conditional admission?

If you meet all entry requirements for your preferred degree or pathway program except the English level, you may be conditionally accepted to ASU. Students with conditional admission can join ASU's Intensive English Program to help build the skills needed to be successful at an American university, or can later submit a qualifying English test score.

## What is the Intensive English Program?

With IEP, you study at ASU while you raise your English level to meet the requirements of your conditional admission. There are 6 IEP levels, from basic to advanced, each lasting 8 weeks. Students take a language test on arrival and are placed in the appropriate level. When you pass the required level, you can progress to your ASU degree or the Pathways program without needing to submit a TOEFL score.

## What is ASU-USA Pathways?

The program lets you start undergraduate studies at ASU while you raise your English proficiency and academic grades. Choose from 3 pathways: **Business**, **Global Management** or **Arts and Sciences**. You'll take a combination of English language and academic courses, and receive extra support to prepare you for degree-level study.

Taught on ASU's West campus, students enjoy access to on-campus housing and dining, and participate in social and academic activities with other ASU students. By successfully completing ASU-USA Pathways, you are guaranteed admission to Year 2 of select ASU majors, and will have earned credit toward your bachelor's degree.

# Choice of degrees

ASU offers a huge range of undergraduate majors and graduate programs, delivered by 17 highly respected academic schools and colleges.

Kaplan can help you gain admission to 350+ bachelor's degrees and nearly 200 master's degrees. Your choice of degree subjects depends on your route to ASU.
