SEMESTER ABROAD

A Program designed for students who wish to have an international study abroad experience. Semester Abroad students will spend a term at the NABA campuses in downtown Milan or Rome* together with students from all over the world. Semester Abroad programs are a combination of theoretical and project-based courses, taught by an experienced faculty composed of reputed designers and creative professionals.

**New Rome location subject to authorization by the MIUR
(Italian Ministry of Education, University and Research)*

NABA

NABA, Nuova Accademia di Belle Arti, is an internationally renowned art and design academy located at the center of Milan's world-famous design scene and in Rome* with a new location. Founded in 1980, NABA is the largest private art academy in Italy. It offers bachelor's and master's degree programs in Italian and in English that are accredited by the Italian Ministry of Education, University and Research (MIUR).

The programs are a continuous sequence of multidisciplinary experiences that generate research and projects in the artistic and professional context of current trends. Ideas become projects, strategies, techniques, technologies, prototypes. Artists, designers, product managers, and all the professionals involved in the productive cycle support us in bringing our ideas to life.

The continuous experience in teams, represents the methodological approach that stimulates innovation and guides us in designing the future together. As an international student at NABA, you will develop your skills while preparing for the world of work. NABA approach emphasizes

hands-on practice, balanced with lectures about art and design theory, making NABA's academic methodology so successful and unique. Within one year of graduation, 89% of our NABA alumni find jobs.

FACULTY

Our professors are key to the success of our approach. They are highly skilled educators who are also practicing art and design professionals. They come from leading design and architecture studios, fashion companies, advertising and marketing agencies, and arts and culture institutes. Some are renowned at curators, designers, critics, published authors, or regular contributors to influential art and design magazines. All bring a current, real-world perspective to their lectures and group projects, through which they inspire students to learn, experiment and grow.

LIVING IN MILAN

If you are passionate about design and the arts, if you want to develop your passion into a fulfilling career, come to the city where design and the arts are part of a rich historical past, a vibrant present, and a thrilling future.

For decades, Milan has been a magnet for top designers, a place where brilliant and creative minds come to make their fortunes in fashion and design. In Milan, you'll enjoy a rare level of access and immersion in design. You'll be exposed to Italy's finest artisan resources, production, and fabrication facilities. You can attend and even participate in world-famous design shows and exhibitions, including Milan's Salone del Mobile and Fashion Weeks. You'll be among the first to know about the latest trendsetting work, and you'll have the chance to make valuable career connections.

Milan is a full immersion in all forms of art. You'll find yourself surrounded by a thriving contemporary art scene; a bold avant-garde theatre community; world-class galleries, museums, design studios, and showrooms; and cutting-edge interaction design and media production companies.

Milan is ideally located in Europe for maximum travel opportunities and fun. You can explore the spectacular alpine and lakeside beauty of northern Italy, take a train to Venice, and Tuscany, Umbria, Rome or a plane to spend the weekend in France, Germany, or even the UK or Spain.

Many of history's greatest artists and thinkers spent part of their education in Rome, the first capital of Western civilization, the Eternal City whose artistic and architectonic history shaped the development of world culture. Considered one of the most beautiful cities in the world, Rome is an UNESCO World Heritage Site and presents itself as an open air museum.

Rome's extraordinary artistic heritage is constantly enhanced by great architectonic projects created by contemporary masters. Besides living and breathing classic and Renaissance art, our students have the opportunity to discover new masterpieces such as the MACRO - Museo d'Arte Contemporanea, the MAXXI (National Museum of 21st Century Arts) designed by Zaha Hadid, Nuvola and Lanterna by Massimiliano Fuksas, and the Auditorium Parco della Musica by Renzo Piano.

A living, vibrant city, Rome offers students innumerable opportunities for cultural enrichment, including exhibitions, plays, concerts, conventions, trade shows and events such as the Roma Jazz Festival. Among these are the most important cinematographic events in Italy, such as the David di Donatello awards and the Rome Film Fest, confirming Rome's position as capital

city of Italian cinema, home to the glorious Cinecittà studios, breath-taking open air film set leveraged by great film-makers from all over the world.

The Eternal City is where brands that are synonyms for elegance such as Bulgari, Capucci, Fendi, Gattinoni and Valentino have their roots; this is where high fashion showcases its best creations every year within the Altaroma fashion week. The famous shopping streets of the city centre such as Via dei Condotti and Via del Babuino host the boutiques of the most prestigious Italian and international luxury brands.

Positioned exactly in the centre of Italy and ideally placed to allow students to visit every region of the Italian peninsula, Rome is also one of the most international cities in the country. Besides being the site of the Italian Parliament and government, Rome also hosts international organizations such as UN, FAO and European Commission.
