The University offers the information contained in this mini guide as a guide only and it does not constitute a contract and is not binding on prospective students, students or the University. While the University makes every effort to check the accuracy of the factual content at the time of publication, some changes will inevitably occur in the interval between publication and the academic year to which the mini guide relates and courses are accredited on an ongoing basis, for varying lengths of time.

Applicants should therefore not rely solely on this mini guide and should contact the Recruitment and Admissions Office on 024 7615 2222 or visit the University website at www.coventry.ac.uk for up-to-date information concerning course content and accreditation, course fees, scholarships, bursaries and entry requirements for the relevant academic year, when considering applying to the University.

WELCOME TO COVENTRY - YOUR FUTURE STARTS HERE

We place students at the heart of everything we do: we know you want excellent teaching, a great student experience and a career which makes your investment worthwhile. We aim to give you these opportunities.

This mini guide will give you a better understanding of our University. Find out about our approach, our student support services and a full list of our courses. For the full story you can order a copy of the complete prospectus for 2015 entry from our website. Or if you would prefer, you can research Coventry University online by checking out our website and social media channels.

We hope you enjoy using this mini guide and that it assists you in making the right choice about your future.

Student Recruitment Team
Coventry University

EXCELLENT TEACHING

The quality of teaching is fundamental to your university experience.

At Coventry, you will experience teaching that is designed to be dynamic and interactive, and which brings your subject to life. We maximise the contact hours you get and prioritise investment in academic staff so that the staff:student ratio is consistently high.

Our courses are full of real-life projects, external competitions, client briefs, and industry or business scenarios so that your knowledge and skills are quickly applied and deepened. We also make sure your lecturers and professors bring some of the excitement and leading-edge knowledge from their research, or case studies from their professional practice, into their teaching to increase its relevance.

You will expect to learn in engaging and technologically smart ways; we innovate to enrich and extend your learning. For example, many lecturers now use interactive response systems in lectures to engage students more effectively and check they have understood important points. Online learning material is placed on a platform called Moodle, so you can access the digital resources for your course anywhere you have an internet connection.

So depending on the course module, you may make use of: podcasts; images and video clips; discussion forums; blogs; expert papers and reports; links to relevant websites; and e-articles. You will also find lecture notes, handouts and details of assignments available online.

www.coventry.ac.uk/ug2015

YOUR COURSE

The course is at the heart of your learning experience.

Fellow students, and the lecturers who teach on the course, will form the community of learning that you join. In the first year, most modules are compulsory to make sure you experience the full breadth of the subject and have the knowledge and skills you need to support choices later on.

In the second and final years, you have flexibility to choose options on most courses to allow you to specialise in what you find particularly interesting, or what will prepare you best for the career you want to follow.

If you already know the career you want to undertake, you may well choose a course that has a strong, specialist vocational focus from the start. Alternatively, if you are not yet sure what you want to do when you graduate, you may decide to study a more general course that keeps your options open in the first year and gives you a choice of different pathways later. You will find plenty of both types of course at Coventry.

PREPARING YOU FOR **SUCCESS**

We know that the right support at the right time will keep you on track to a graduate-level job or the place you want on a postgraduate course.

You will have a personal tutor from the beginning of your time at Coventry who will help you settle in to your course and will review your academic progress regularly with you. Your personal tutor can give you advice if you have any problems, or signpost you to the relevant student support service, and will help you to make the right option choices on your course.

You will also be assigned an employability tutor, who is there to help you develop your CV, practice interview techniques and ultimately to assist you in your quest to find a graduate job as you near the end of your time at university.

Our nationally recognised and award-winning Maths and Stats Support Centre offers individual, small group and online help with any aspect of maths – irrespective of which course you are studying. And our Centre for Academic Writing is there to help you improve the way you build an academic argument in your essays, sharpen up your project reports, or structure your final year dissertation. Again, this free service is open to students on any course.

YOUR FUTURE

We help you to stand out from other graduates in the job market or to get onto a postgraduate course.

Preparing you for a successful career is central to the design of our courses and the other support we provide. We know that securing a graduate level position is the return you want from your investment in time and money. Our commitment to employability sets us apart from other universities. Recent results show an impressive 94% of our graduates gained employment or continued to further study after they graduated*.

Not all graduate-level jobs require a particular degree subject. Often, what employers are looking for (alongside a good final mark) are more general capabilities such as being enterprising, having a global outlook, knowing how to work well in a project group, being able to communicate effectively and demonstrate leadership, and having good problem-solving and analytical skills. You will be able to develop these graduate characteristics throughout your course and we make sure we build them into the assignments you do.

Employers are also very keen to see work experience, placements or internships on your CV and we invest heavily in helping you to secure these opportunities as part of the course itself, as a year out, or in the vacations between years. You can seek help in getting a placement or internship through the dedicated Careers and Employability Service.

Recent studies have shown that if you study or work abroad as part of your course you are more likely to gain a better degree result, feel more confident and become culturally aware. You are also more likely to be employed in a graduate-level position**. Add to this the prospect of receiving a higher salary and you can see why we are so keen to help you become a Global Graduate.

At Coventry you can:

- Study abroad with one of our partner institutions;
- build your cultural awareness by becoming an international student mentor;
- gain valuable work experience through work placements and internships abroad;
- join our Global Volunteering programme;
- learn a new language from scratch;
- learn about doing business internationally as part of your course.

Our specialist International Experience and Mobility Service will help you to identify the right overseas opportunity for you and help you apply for external funding to enable you to travel overseas.

OUR SINGLE SITE CITY CENTRE CAMPUS

At the centre of the campus you'll find **TheHub** students' building, designed to allow you to live your student life to the full.

TheHub

Throughout the day the design of the building invites you to relax, meet up with friends and study informally. There are a full range of services including a Costcutter food store, a branch of Costa Coffee, a

unisex hairdressers and a Food Court featuring lots of food choices which cater to all tastes. There's even a roof garden to enjoy. In the evening, the building forms part of the entertainment offerings on campus with a bar, 3D cinema and performing arts space.

If you want to live at home and commute to study, **TheHub** can be your ideal base during the day where you can chill out, check your social media or work on group assignments.

Bring this page to life with the **FREE CUview app**

Aurasma: Coventry University

Meet your Students' Union...

Coventry University Students' Union (CUSU) is based in **TheHub** where an extensive entertainment programme awaits you alongside welfare and volunteering activities and a huge range of sports clubs and societies. This ensures there are plenty of ways for you to form friendships and enjoy the social side of your university experience as well as providing you with the chance to expand your CV and further your employability skills.

There are over 100 sports clubs and societies for you to join at Coventry. You'll find everything from traditional sports like football and rugby to non-traditional sports such as cheerleading and mountaineering. We enter teams into the British Universities and College Sports (BUCS) league and take part in everything from swimming to karate. Sports clubs have access to playing fields at Westwood Heath as well as halls, courts, gym facilities and a variety of exercise classes in the University Sports Centre.

There are also religious and culturally based societies such as Islamic, African-Caribbean and Christian. And if your preferred interest isn't on the list, they'll give you the help you need to start up a new club or society. It's a great way to meet people and to take up a new interest.

CUSU has a strong entertainment offering, with regular party nights and live music at our venue – HUSH. Our student-only door policy means you're likely to meet people from your course or based in your halls. HUSH has hosted a number of top DJs over the past year including Tim Westwood, Scott Mills and Greg James.

From R'n'B night on Mondays to Sports and Societies night on Wednesdays and everything in between, all tastes in music are catered for at HUSH.

Aurasma: Coventry University

ENJOY CITY LIVING

Coventry University is situated in the heart of the city and occupies a compact campus.

University Square and the surrounding area form a protected environment where you will find the old Cathedral ruins, the new Cathedral, the award-winning Herbert Art Gallery and Museum, beautiful cobbled lanes, Georgian architecture, speciality shops, pavement cafés, bars and restaurants.

The main shopping centre is five minutes' walk away from the centre of campus. Coventry has a diverse range of shops and it caters for all budgets. You will find all the major high street brands such as Primark, Topshop, River Island, Debenhams and many more in the city's main shopping centre. Coventry also has one of only two city centre IKEA stores. There is a good selection of niche, independent retailers and an excellent indoor market. You'll never be short of an affordable place to eat, with the likes of Nando's, Pizza Express, Bella Italia, Frango's, Wetherspoons and Cosmo's all within easy walking distance.

If it's music you're interested in, top acts such as Coldplay, Muse, Florence and the Machine and Rhianna have all performed to sell-out crowds at the Ricoh Arena recently, while on a smaller scale places like the Kasbah and Rosie Malone's host a lot of live bands and are very popular with students.

For more of a cultural experience, there is the Herbert Art Gallery & Museum, the Belgrade Theatre, one of England's finest medieval Guildhall and Coventry's Transport Museum with the world's largest collection of British road transport.

For sports fans, The Ricoh Arena on the northern edge of the city is where thousands of visitors gather for major sporting events including Rugby Union's Heineken Cup, the World Snooker Championship and the Women's Football FA Cup Final. There is also Butts Park Arena, home to Coventry Rugby Club who play in National League 1. For those who prefer the rink to the pitch, Coventry also has a successful ice hockey team, the Coventry Blaze, who regularly play at Planet Ice in the Skydome complex.

YOUR HOME FROM HOME

Living away from home in student accommodation is a great way for you to make new friends and integrate quickly into university life. Coventry University has a very good range of comfortable, secure and reasonably priced accommodation. You can choose to live in en-suite halls or those with shared facilities, and most of the accommodation is situated on or very close to the campus.

Making Coventry your new home couldn't be easier with our friendly accommodation service. Most first-year undergraduates choose University owned or University-managed accommodation. You can choose from traditional halls of residence, self-catered halls and houses. Most of our accommodation is either on or within walking distance of the campus. The majority come with free broadband and personal possession insurance. Utility bills are also included in the cost so you don't have to worry about additional charges.

We know that our residential students want a choice of accommodation options to suit their preferred lifestyle. We offer that range and we have our own letting agency if you want to rent privately in the city. Prices typically range from £50 - £80 per week, excluding living expenses and utility bills.

www.coventry.ac.uk/accommodation

UNDERGRADUATE COURSE LIST 2015

Over 130
Undergraduate
courses to
choose from

We have over 130 courses to choose from and you'll find them all listed on the next few pages. They cover everything from automotive design to nursing, law to architecture, physiotherapy to photography.

Most of our full-time three year courses have the option of an additional year's placement in the UK or overseas to give you valuable work experience.

To find out more about any course and the entry requirements, visit our website:
www.coventry.ac.uk/courses

			CCD	220			

Fees, loans, grants and scholarships

Following the fee and loan changes in 2012, students from the UK and EU studying full-time for their first degree will not have to pay any fees while they study. More details are available online at gov.uk/student-finance.

We have set our fees primarily according to the cost of teaching groups of similar courses. Classroom based courses, for example, cost less to deliver than laboratory-based courses and this is reflected in the lower fee you pay. We know you expect a consistent, high-quality, academic experience and also expect to find certain student support services and facilities as part of your student life. The costs of these are shared equally by all students and are included in the fee.

Loan scheme

The UK Government Student Loan Scheme is operated through Student Finance England. You pay nothing back while you are studying. You start paying back your loan with interest when you are earning £21,000 or more per year. The loan repayment is collected through the UK Income Tax system.

All UK students studying full-time will be able to take out a student loan to cover their tuition fees completely.

All UK full-time students are also able to take out a maintenance loan of up to £5,555 (in addition to the loan to cover the tuition fees) to help cover their living costs.

For more information visit: gov.uk/student-finance

FACTS ON FINANCIAL SUPPORT FOR FULL-TIME UK AND EU STUDENTS

No upfront costs

- You don't have to pay for your course tuition fee yourself upfront;
- You can get a loan to cover the cost of your tuition, which you only start to pay back when you are earning over £21,000 a year.

OUR CLEAR FEES POLICY

The tuition fees at Coventry University

Our fees range from **£8,258** to **£9,000 p.a** for UK/ EU students for courses delivered on campus*.

*The fee amounts shown are for your first year's study only. We will apply annual increases to our fees for continuing students, subject to the higher amounts allowed in statutory regulations, in accordance with increases in the retail price index. Fees are subject to OFFA confirmation. The fees stated in this prospectus are correct at the time of going to press but subject to inflation and other price fluctuations. The University and Coventry University London Campus Limited reserve the right to alter fees from the prices stated herein.

No hidden extras

Wherever possible, we make sure that the fee you pay is inclusive of the mandatory costs of taking a particular course. The fee for full-time students will therefore cover the following:

- Your own copy of specified core textbooks or, for Art and Design students, materials required for your course*;
- any mandatory UK site visits and trips;
- any essential starter pack required at the beginning of the course e.g. lab coat, industrial boots or safety goggles;
- 1,000 A4 sides of black and white laser prints (or equivalent) printing credits per year.

Where there is significant additional expenditure required there is an indication of this on the course finder on our website and on each course page of the full prospectus. In many cases the additional expenditure is optional and represents supplementary course-related activity.

Fee waiver

Many universities charge a tuition fee if you decide to take a year out on a supervised work placement or study abroad opportunity. We want to encourage all students to take advantage of a year out and, as a result, are waiving the tuition fee for all students who opt** to take a year out.

*For Art and Design courses where items such as a high quality laptop/tablet and industry software are provided, separate terms and conditions apply for this provision. For more information please see www.coventry.ac.uk/ug2015/nohiddenextras

**on some courses (including Automotive and Transport Design, Product Design and Interior Design) certain placement years are a mandatory part of the course, and the tuition fee waiver does not apply.

SCHOLARSHIPS AND GRANTS

Coventry University offers four excellent scholarship schemes* to help students with the costs of their education. Most scholarships can be renewed each year subject to conditions.

All scholarships (with the exception of the Sports Scholarship) require students to:

- be a UK applicant (unless specified) at Coventry University;
- have applied for a full or part-time undergraduate degree course**;
- be paying the full tuition fees;
- select Coventry University as their Firm choice (CF or UF) during the UCAS process;
- meet all the specific scholarship criteria.

You can find out more information about scholarships over the next two pages of this mini guide

*Further information and applications can be found at www.coventry.ac.uk/fundingsupport

**Part-time students will receive a pro-rata award

Academic Excellence Scholarship

This Scholarship will reward UK students who obtain a minimum of ABB (BBB for certain courses) or above from three full A2 Levels or certain equivalent qualifications (see www.coventry.ac.uk/qualifications for details of the acceptable alternative qualifications).

The Academic Excellence Scholarship is worth either £1,000 cash or £1,500 discount on University-owned accommodation. This could mean a reward of up to £3,000 or £4,500 during the length of your studies if you satisfy the renewal conditions each year.

EC Excellence Scholarship

– available to Engineering, Computing and Mathematics students only

Coventry University will also be rewarding UK students who are specifically undertaking courses provided by the Faculty of Engineering and Computing for their academic achievement.

This would consist of either £1,000 cash or £1,500 discount on University-owned accommodation.

The following criteria apply:

- You must be starting the first year of an undergraduate course provided by the Faculty of Engineering and Computing;
- You must have achieved at least BBB from three full A2 Levels or equivalent qualifications (please see website for qualifying equivalent qualifications);
- you must select Coventry University as your Firm choice (CF or UF) through UCAS.

Phoenix Scholarships

Phoenix Scholarships are awarded competitively on the basis of good results. Each scholarship is worth £3,000 in the first year and £2,000 in the second. It is not renewable for the third year. Of this, successful scholars will receive:

Year 1:

- a fee waiver of £2,500: this will reduce tuition fee liability;
- a cash payment of £500 (paid directly into your bank account).

Year 2:

- a fee waiver of £1,500;
- a cash payment of £500 (paid directly into your bank account).

Phoenix Scholarships require students to be entitled to a full Maintenance Grant (household income less than £25,000), and obtain more than 260 UCAS points from three full A-Levels or equivalent qualifications.

A proportion of these scholarships are reserved for students from Phoenix Partnership schools. The remainder are allocated to other qualifying students residing in England.

Sports Scholarships

We offer one of the best sports scholarships support programmes in the country. There are approximately 30 sport scholarships awarded competitively each year. Both undergraduate and postgraduate students are eligible to apply for the Scholarship. This includes UK/ EU, overseas students and students who have moved on to years two or three who were not previously eligible, but whose performance has improved sufficiently for them to apply.

The following minimum criteria apply:

- you must have the sporting ability to represent the University at a high level;
- priority would be given to the University focus sports 'Team Phoenix' but applications are open to all;
- you must participate in a sport recognised by SportEngland. This can be checked at **www.sportengland.org**

Sports scholarships are for one year and are worth either:

- £3,000, consisting of up to £1,500 cash and up to £1,500 worth of support; or
- £1,500, consisting of £750 cash and £750 worth of support.

For more information contact the Sports Development Officer on 024 7679 5979 or email **sportingexcellence.ss@coventry.ac.uk**

All scholarships and grants are subject to OFFA (Office for Fair Access) approval.

Grants

For all UK students qualifying for full or partial maintenance grants (from Student Finance England) we offer the following grant awards:

- £100 towards the costs of going on an optional short visit or fieldtrip overseas connected with your course. This grant is to assist with, for example, the purchase of a passport if you do not have one or any vaccinations that may be required. You may only claim for one such trip during your course;
- £500 towards the additional accommodation or maintenance costs you may incur if you take up the opportunity of a study period or work placement, of one month or more overseas. You may only claim this grant once;
- £500 towards travel and subsistence costs if you take up a work placement or internship in the UK, outside the Coventry area, of one month or more, where the placement or internship is unpaid. You may only claim this grant once.

CONNECTING WITH US

You can find us on lots of social media including Facebook, Twitter, The Student Room, YouTube, CUTV, iTunesU and our own website.

We've created mobile and tablet, iPhone and iPad apps, and we have a dedicated YouTube channel. All of these link you to the latest news, views and tweets from students, tutors and employers about life on campus, what we're teaching and what our students think of it.

You can access a variety of lectures and other content through podcasts on our iTunesU platform and it's all available using the campus Wi-Fi, so that no matter where you go, if you need to log on, then simply sit down and hook up.

Join us for an Open Day...

To really understand what Coventry University is like – the people, the place and its character – you need to arrange a visit. And that's why Open Days are so important...

Open Days give you the chance to find out what the course, staff, facilities and campus are really like. Even if you live in the area, and think that you know about the University already, you'll be surprised at the amazing developments, social experience and support that's on offer.

Go on a campus tour with one of our current students and see inside the Library, the Sports Centre, the new Engineering and Computing building and TheHub, talk to students and staff, find out about the accommodation options, look at all the support services available and generally see all that the University has to offer. You want to be sure that the investment you're about to make will be worth it. We can assure you that it will.

To find out more about our open days please go to www.coventry.ac.uk/opendays

We also offer Student Led Tours on most Tuesdays and Thursdays throughout the year. Student Led Tours exist for anyone who is unable to make it to a full Open Day, but they do not involve a subject-specific course information session. What they do is provide a great opportunity for you to get a feel for the campus and our facilities, whilst also giving you access to the opinions and views of one of our student ambassadors, who act as your tour guides for an extended campus tour which is followed by a lunch in the Food Court of TheHub.

To find out more please go to www.coventry.ac.uk/studenttours

A group of diverse young adults, including students and staff, are walking and smiling in a bright, modern hallway. The hallway features large windows and yellow pillars, creating a warm and inviting atmosphere. The group consists of four people in the foreground, with others visible in the background. They are dressed in casual attire, and the overall mood is positive and energetic.
