Research Excellence
Framework 2014

"Durham's just such a prestigious university. It's always one of the top universities in the university ranking guides."

This foundation year is really focussed on preparing you for what university is like in England. In classes, we've had practice doing seminars and essays that are geared towards university level so everything that we do is good preparation for what's going to be ahead of us.

Stockton is very different to where I have lived but I actually really, really like it. I love how quiet the town is and even though it's small, it's very accessible and people are really genuinely friendly. When I'm at the shops hey stop and say 'hi' to you and they have a conversation but that never really happens when you're in a busy bustling town like Singapore."

Such circumstances include (but are not limited to) industrial action, lack of demand, departure of key personnel, change in government policy, withdrawal or reduction of funding, change of law. Study Group will take such steps as are available to it to minimise the effect of any alteration or withdrawal of a course and we will notify you of such alteration or withdrawal as soon as possible. Such steps may include the offer of a place on an alternative course.

Please note that the Durham University International Study Centre's website is the most up to date source of information regarding courses and facilities and we strongly recommend that you always visit the website before making any commitments.
