This booklet outlines the postgraduate degrees offered at Macquarie's main North Ryde campus for a student commencing in 2014. Where noted, degrees are also offered at Macquarie City Campus or by distance.

For detailed and up-to-date course information visit [courses.mq.edu.au](http://courses.mq.edu.au)

This document has been prepared by the Marketing Unit, Macquarie University. The information in this document is correct at time of publication (July 2013) but may no longer be current at the time you refer to it.

The fees quoted in this brochure are estimated annual fees payable for the relevant postgraduate degree in 2014. These fees may change from year to year. Annual fees are calculated from per-credit-point fees with a typical credit point load per session. Students may be subject to other fees, charges and conditions for each session in which they enrol and are advised to check current fees, charges and conditions with the University before enrolment.

The University reserves the right to vary or withdraw any general information; any course(s) and/or unit(s); its fees and/or the mode or time of offering its course(s) and unit(s) without notice. The University, its agents, contractors and employees will not be liable to a student for any loss or damage arising directly or indirectly from the student's failure to make these checks or from the University's amendment to any fee, charge or condition. You are advised to check the latest information by referring to the Macquarie website ([mq.edu.au](http://mq.edu.au)) or contacting Macquarie International at [iso@mq.edu.au](mailto:iso@mq.edu.au).

# Advance your career with postgraduate study

Macquarie University's wide range of world-class postgraduate degrees allow you to gain professional accreditation or develop your expertise to suit your professional goals and advance your international career.

Postgraduate coursework degrees at Macquarie University involve attendance at lectures, tutorials, or weekend intensive programs and do not generally involve research work. Information about postgraduate research opportunities at Macquarie can be found on page 50.

Postgraduate coursework at Macquarie can result in three different types of qualifications – a masters, postgraduate diploma or postgraduate certificate.

In many instances the postgraduate certificate and postgraduate diploma involve shorter-term study and fall within the broader or more in-depth study of a masters degree. Appropriate performance in the postgraduate certificate and/or postgraduate diploma may be counted for credit towards the masters.

## Real-life flexibility

At Macquarie we understand that postgraduate study might need to fit in around your work and family commitments. With this in mind, we offer flexible modes of study to fit your lifestyle.

Most of Macquarie's postgraduate degrees include units that are offered both during the day and in the evening, so you can create a study schedule that suits you. Some units are also available in Session 3 – an optional intensive study period offered in the summer months that allows students to catch up or reduce their workload for the next year.

A number of Macquarie's postgraduate degrees are offered at our partner campuses outside Australia, including courses in applied finance, translating and interpreting, and the MGSM MBA. For details about these courses, visit our online coursefinder [courses.mq.edu.au](http://courses.mq.edu.au).

## Study by distance

Macquarie offers a range of postgraduate courses in online mode, allowing you to fit your study around work or family commitments and gain a Macquarie degree from anywhere in the world. You'll have access to the same expert academics and learning resources, and have the opportunity to connect with other distance and on-campus students.

Distance courses are available in areas such as linguistics, education, international relations and policing, intelligence and counter terrorism.

The Faculty of Arts is the place for discovery. Our students are encouraged to work across disciplinary boundaries and explore new areas of professional development or personal passion. By choosing to study postgraduate arts at Macquarie you will have access to a range of degrees, experiences and facilities designed to make you ready for the future.

You will have opportunities to explore socially complex problems, identify paths of research, analyse and communicate ideas in creative formats, engage in productive activities, and develop the skills and knowledge needed to understand the world, past and present.

**Professor John Simons**

Executive Dean,  
Faculty of Arts

# Media and creative arts

Macquarie's media and creative arts degrees will prepare you for the changing media landscape. Our degrees are constantly evolving to incorporate new and emerging media practices, ensuring our students develop the skills sought by employers.

You will learn from Australia's leading, award-winning professionals and academics, and have access to state-of-the-art facilities and internship opportunities to develop the practical experience you need to build your career.

## 3 reasons to choose media and creative arts at Macquarie

- 1 Access to state-of-the-art production spaces for music, dance, radio, film and digital media
- 2 We are home to multiple film and national music award winners
- 3 Our degrees have a large production component so you learn from first-hand experiences and work with industry practitioners

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Arts

1 year full-time

Whatever your field of interest, postgraduate study in media and creative arts broadens your outlook and helps you to branch out in the direction you want to grow.

With the Master of Arts you can explore the principles and practices of children's literature; explore communication in an international setting; extend and challenge yourself as a writer; study literary texts, their social and historical contexts; or examine the nexus between media, law and culture.

### Who should apply:

Those who have completed a recognised bachelor degree and are looking to further their understanding in a particular specialisation. It is also relevant to practising lawyers who wish to explore issues around media, law and culture.

### Admission requirements

Australian bachelor degree or recognised equivalent in relevant field.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$28,768

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 6.5 overall, 6.0 in each band. Higher English language requirements apply for specialisations in Children's Literature, Creative Writing and English Literature

CRICOS code 030079F

[courses.mq.edu.au/intl/MArts](https://courses.mq.edu.au/intl/MArts)

### OR START WITH...

Postgraduate Certificate of Arts	0.5 years full-time	CRICOS 055626M
Postgraduate Diploma of Arts	1 year full-time	CRICOS 061434B

## Media and creative arts specialisations

### Children's Literature

Considers current principles and practices in analysing children's literature from the perspective of literary and cultural theory, and the social and historical contexts of children's literature.

### Creative Writing

Designed to extend and challenge emerging writers to hone their craft in a small community of writers, this specialisation focuses on developing each student's creativity and writing skills.

### English Literature

Offers an advanced study of literary texts, their social and historical contexts, and ways of interpreting them.

### Media, Law and Culture

Examines, in critical detail, the nexus between media, law and culture by grounding the study of media in the context of the key laws and policies that shape media practice.

## Postgraduate Certificate of Editing and Electronic Publishing (distance program)

1 year part-time

Designed for those with at least one year of experience in editing, journalism, publicity or editorial management. It aims to widen and develop your professional skills across a range of styles and documents, scenarios and media for publishing.

This degree is not available to be studied by international students on campus, however we welcome applications from international students wishing to study by distance mode.

Relevant work experience will be taken into account for those who do not hold a bachelor degree (minimum work experience is seven years).

### Subjects you will study include:

Content Management for Print and Online Delivery; Tools for Editing; Language, Writing and Editing.

### Admission requirements

Australian bachelor degree or recognised equivalent. Minimum one year of relevant work experience in editing or publishing.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$9,240

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 7.0 overall with 6.0 Listening, 7.0 Reading, 7.0 Writing, 6.0 Speaking

CRICOS code n/a (distance program)

[courses.mq.edu.au/intl/PGCertEdandElecPub](https://courses.mq.edu.au/intl/PGCertEdandElecPub)

# Security and intelligence

Combine theory with policy and practice in strategic policing, intelligence operations, counter-terrorism, and national and international security at Macquarie's Centre for Policing, Intelligence and Counter Terrorism (PICT).

Taught by senior academics and leading industry professionals, PICT offers innovative and cutting-edge degrees. Not only will our degrees enhance your expertise in policing, intelligence, counter terrorism and security, you will also build professional relationships with experts working both in Australia and internationally.

PICT803: Regional Security and Intelligence  
PICT805: Security and the Media  
PICT807: Forensic Science and Security  
PICT808: Cybercrime and Cyberterrorism  
PICT812: Methods of Research and Writing  
PICT813: Intelligence Analysis – Theory and Practice  
Intelligence Integration – Security and Policing  
Business and Government  
Counter Terrorism

## 3 reasons to choose security and intelligence at Macquarie

- 1 You'll learn from international experts with years of practical experience in their field
- 2 Unique courses tailored to meet the needs of industry and students alike
- 3 Our innovative approaches to learning blend e-learning and traditional methods to give you study flexibility

 Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of International Security Studies

1 year full-time

Taught by international experts with practical experience in all levels of security, this degree will explore the major changes in the international system in the aftermath of September 11. This degree is also offered by distance.

### Who should apply:

This degree is designed for students who work, or wish to work, within fields of strategy in either government or non-government organisations. It is also designed for individuals considering a high-level career in government, private industry or non-government organisations, or those wishing to undertake research activities in related academic areas.

### Subjects you can study include:

Border Security and Migration, Humanitarian Intervention and Peacekeeping, Information Security, Insurgency and Non-State Security Challenges.

### Admission requirements

# Society, history and culture

Expand your horizons and see the bigger picture with our world-class degrees in society, history and culture. Macquarie's research in history and archaeology, and language, communication and culture was rated above world standard in the Australian Government's 2012 Excellence in Research for Australia (ERA) evaluation.

Take your knowledge beyond borders with our internationally focused degrees in communication, international relations and public diplomacy. You'll learn from leading academics and researchers, and gain unique insights from professionals working in all corners of the globe.

If history is your passion, we'll bring your studies to life with world-renowned teachers such as Professor David Christian, the pioneer of 'Big History' who is working with Bill Gates on a revolutionary approach to history teaching.

## 3 reasons to choose society, history and culture at Macquarie

- 1 We are the only Australian university with a licence to dig in Egypt's Nile Valley
- 2 Our internationally focused degrees prepare you for work in international organisations such as the United Nations
- 3 Broaden your knowledge and expand your career opportunities with our combined degrees

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Applied Anthropology

1 year full-time

Macquarie offers Australia's first and longest running Master of Applied Anthropology. This unique coursework degree includes a research element designed for students who wish to gain a qualification in the area of applied anthropology, with a focus on social and cultural aspects of development and policy research.

### Who should apply:

Students who wish to gain a graduate qualification in the area of applied anthropology, social aspects of development studies, consultancy, and policy research with a specific focus on the local and community level.

### Subjects you will study include:

# Macquarie Law School

Learn to think critically and creatively, and enhance your career with Macquarie's interdisciplinary approach to the study of law.

Rated above world standard (4 out of 5) in the Australian government's Excellence in Research (ERA) evaluation in 2012, Macquarie's research in law and legal studies underpins our degrees which are suited to both lawyers and non-lawyers.

At Macquarie, you will broaden and deepen knowledge in your area of expertise, and gain the skills and knowledge to attract the attention of leading employers across Australia and around the world.

## 3 reasons to choose law at Macquarie

- 1** We pioneered the interdisciplinary study of law giving you a legal education you won't find elsewhere
- 2** Our graduates find employment in leading firms, as well as roles in government, advocacy, international organisations and corporations
- 3** You will learn from experienced and dedicated experts who are active researchers in their fields

 Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

Juris Doctor	3 years full-time
<p>Gain an in-depth understanding of the Australian legal system, including an international law perspective. You will develop the advocacy and analytical skills required for a successful legal career. The degree also offers opportunities to combine your studies with practical work experience.</p> <p>The Juris Doctor qualifies you to seek admission to practice as a legal practitioner in New South Wales (subject to practical legal training requirements).</p> <p><b>Who should apply:</b> Students wanting to enter the legal profession or develop a broad and comprehensive understanding of the Australian legal system.</p>	<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent. # Faculty of Business and Economics

The Faculty of Business and Economics delivers leading-edge knowledge across a range of contemporary business disciplines.

We produce graduates who are world-ready business professionals with highly developed professional skills, enquiring minds, ethical principles and the confidence to contribute to shaping the future.

The teaching and learning experience of our students is informed by the high profile research of our academic staff. This means our students access the most up-to-date thinking in their subject area.

Our postgraduate degrees also provide options for a flexible program of study designed to fit your lifestyle, and maintain the academic standards essential for professional accreditation.

**Professor Mark Gabbott**

Executive Dean, Faculty  
of Business and Economics

# Business

Get the skills companies want in a challenging economy.

Macquarie offers Australia's largest postgraduate accounting program, providing a pathway for university graduates in any discipline to acquire qualifications recognised by CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

With access to business experts and exposure to world-class research, you will also benefit from scholarships and internships with partners from leading organisations in fields such as banking and finance, government, healthcare, IT, not-for-profit and pharmaceuticals.

## 3 reasons to choose business at Macquarie

- 1 Our business degrees are **accredited by professional bodies** such as CPA, Actuaries Institute and Australian Marketing Institute
- 2 Our strong global focus helps you **develop links with international business and the world**
- 3 We offer **internships with leading organisations** such as Yahoo!, Accor and Konica Minolta

 Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Business Administration

1 year full-time

Ranked among the world's top 100 MBA programs (*The Economist* Which MBA 2012), an MGSM Master of Business Administration (MBA) is a learning experience that is both invigorating and invaluable. Providing a strategic business perspective and a complete grounding in the core elements of general management, this degree extends, challenges and ultimately, transforms today's management professional.

This degree is offered at MGSM North Ryde campus and in Hong Kong. Elective units can also be taken at the MSGM Sydney CBD Campus.

### Subjects you will study include:

Accounting for Management, Marketing Management, Organisational Behaviour, Strategic Frameworks, Information and Decision Analysis, Strategic Management.

### Accreditation:

MGSM's MBA is accredited by the international accreditation body AACSB International. AACSB accreditation represents the highest standard of achievement for business schools worldwide. Less than five per cent of the world's 14,000+ business programs have earned AACSB accreditation.

### Admission requirements

Australian bachelor degree or recognised equivalent. Minimum two years of relevant management or professional experience.

### Intakes (2014)

MGSM Term 1 (January), Term 3 (June)

### 2014 estimated annual fee (AUD)

\$65,600

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 6.5 overall, 6.0 in each band

CRICOS code 018365A

[courses.mq.edu.au/intl/MBA](https://courses.mq.edu.au/intl/MBA)

## Master of Management

1 year full-time

Detailed insights into a specific field of management are the defining feature of the Master of Management. This degree fully prepares you for either a generic senior management position, or a senior management position within a certain field, whether it's marketing, finance or another function you aspire to lead.

This program is offered at MGSM North Ryde campus and in Hong Kong. Elective units can also be taken at the MSGM Sydney CBD Campus.

### Subjects you will study include:

Accounting for Management, Marketing Management, Organisational Behaviour, Strategic Frameworks.

### Accreditation:

MGSM's management degree is accredited by the international accreditation body AACSB International. AACSB accreditation represents the highest standard of achievement for business schools worldwide. Less than five per cent of the world's 14,000+ business programs have earned AACSB accreditation.

### Admission requirements

Australian bachelor degree or recognised equivalent. Minimum two years of relevant management or professional experience.

### Intakes (2014)

MGSM Term 1 (January), Term 3 (June)

### 2014 estimated annual fee (AUD)

# Faculty of Human Sciences

The Faculty of Human Sciences prepares graduates for the future – people who are well-informed, ethical, curious and compassionate, and who want to make a real difference.

With national teaching awards in all departments, strong research at or above world standard and world-class facilities, Macquarie is fast becoming the place to be for tomorrow's successful health and human sciences professionals.

The new Australian Hearing Hub will see students in the Faculty working amongst highly skilled professional practitioners and world-class researchers in well-equipped laboratories for cognitive and language sciences, brain sciences and speech and hearing sciences.

Our education and early childhood students have the opportunity to learn with the latest technology in our ICT Innovation Centre and with leading researchers and professionals in two renowned centres – the Mia Mia Early Childhood Learning Centre and the Macquarie University Special Education Centre.

# Education and teaching

Change destinies and enrich lives with Macquarie's postgraduate education degrees.

In 2012 Macquarie's specialist studies in education research was recognised as above world standard (4 out of 5), according to the Australian Government's 2012 Excellence in Research for Australia (ERA) evaluation.

Academics, researchers and graduates from Macquarie regularly receive high-profile awards that reflect their achievements in the field.

Our degrees will help you understand your specialisation within a wider context and equip you for senior education leadership and management roles.

## 3 reasons to choose education and teaching at Macquarie

- 1 We have a long history of producing **world-class teachers with broad world views**, regardless of their chosen area of study
- 2 Early childhood education is **one of the country's fastest growing job markets** and a Macquarie degree will give your career in this field the edge
- 3 Access to our on-campus school for children with special needs, and the **world-class childcare facility Mia Mia**, contribute to your learning experiences

## Master of Higher Education

1 year full-time

The Master of Higher Education is a flexible degree for those wishing to study higher education and higher education development. You can choose to undertake the general degree or specialise in Learning and Teaching.

The Learning and Teaching specialisation covers a range of higher education topics, especially focusing on how to design and utilise curricula, the integration of technology into higher education, and the practice of critical reflection in higher education.

This degree is also offered by distance.

### Who should apply:

Suitable if you are an academic or other higher education professional looking to extend your knowledge and expertise in learning and teaching.

### Admission requirements

Australian bachelor degree or recognised equivalent.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$28,160

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 7.0 overall, 7.0 in each band

CRICOS code 055620F

[courses.mq.edu.au/intl/MHEd](https://courses.mq.edu.au/intl/MHEd)

### OR START WITH...

Postgraduate Certificate of Higher Education (distance program)	1 year part-time	CRICOS n/a
Postgraduate Diploma of Higher Education (also available by distance)	1 year full-time	CRICOS 055625A

## Master of Special Education

1 year full-time

This degree will develop your interest in special education and give you an appreciation for the dignity and rights of all people to learn, regardless of their physical or intellectual disabilities or other special needs. It allows you to focus on specialised areas and includes the option of completing a research project (subject to performance).

A prior teaching qualification is not required unless you want to work as a special education teacher in schools.

This degree is also offered by distance.

### Who should apply:

Teachers, special education teachers or other professionals working with people with disabilities.

### Subjects you will study include:

Effective Instruction for Students with Special Education Needs, Key Research Issues and Methods in Special Education.

### Admission requirements

Australian bachelor degree or recognised equivalent in relevant field.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$28,160

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 7.5 overall, 8.0 in Listening and Speaking, 7.0 in Reading and Writing

CRICOS code 027543B

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Speech and Language Pathology

2 years full-time

This degree prepares you for the profession of speech pathology and enables you to work clinically with individuals with developmental and acquired communication and swallowing disorders. It builds on fundamental knowledge from linguistics, psychology, anatomy and physiology. The comprehensive supervised clinical placements develop skills in assessment, intervention, service delivery and other aspects of professional practice.

### Who should apply:

Students interested in assisting adults and children with communication and swallowing problems, who hold a qualification in speech and hearing sciences. This degree is also suitable if you are looking to change career, however you must first complete a Graduate Diploma of Speech and Communication.

### Subjects you will study include:

Developmental and Acquired Speech and Swallowing Disorders, Developmental and Acquired Language Disorders, Disorders of Voice and Fluency and Medical/Surgical Speech Pathology.

### Admission requirements

Australian bachelor degree or recognised equivalent in speech and hearing sciences. Minimum GPA of 3.00. 1–2 page personal statement.

### Intakes (2014)

Session 1 (March)

### 2014 estimated annual fee (AUD)

\$42,368

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 7.0 overall, 7.0 in each band

CRICOS code 037303B

[courses.mq.edu.au/intl/MSpchLngPath](https://courses.mq.edu.au/intl/MSpchLngPath)

## GRADUATE DIPLOMA PATHWAY FOR STUDENTS WITHOUT A BACHELOR DEGREE IN SPEECH AND HEARING SCIENCES

Graduate Diploma of Speech and Communication

1 year full-time

CRICOS 075264M

*"Through my research, I found that Macquarie's program is more established than those offered by other Australian universities and also offers a wider variety of clinical placements. I can get work experience in paediatric or a hospital or a school, depending on my interests. Being qualified by the Speech Pathology Association of Australia means I'll have work opportunities in English-speaking countries like Canada and the US."*

Win Sum Cheung, Hong Kong  
Master of Speech and Language Pathology

# Linguistics, translating and interpreting

Get the skills that translate into global career opportunities.

Ranked among the top 50 universities in the world for linguistics by QS, Macquarie offers dynamic degrees and one of the most comprehensive range of translating and interpreting courses in Australia.

We host five internationally recognised research centres that collaborate with community organisations, government departments, medical institutions, private companies and other universities at the forefront of linguistics research. Our linguistics research is judged to be above world standard, having received a rating of 4 out of 5 in the Australian Government's 2012 Excellence in Research for Australia (ERA) evaluation.

## 3 reasons to choose linguistics, translating and interpreting at Macquarie

- 1 QS ranks Macquarie as **one of the top 50 universities in the world for linguistics**
- 2 **Benefit from our extensive partnerships** with leading universities, community organisations, government departments, private companies and medical institutions worldwide
- 3 Be part of our **ground-breaking research, nourished in concentrated, interdisciplinary centres**

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Advanced Translation

1 year full-time

This degree will enhance your qualifications by teaching you the research and practical skills necessary in translating highly sophisticated and specialised texts.

### Who should apply:

You should apply if you have successfully completed a Postgraduate Diploma or Master of Translating and Interpreting and wish to upgrade your professional qualifications to an advanced level. This degree is also suitable if you are already working as a professional translator and want to enhance your knowledge and skills.

Suitable for students from any language background.

### Subjects you will study include:

Advanced Translation Practice, Advanced Translation Theory, Specialised Translation Project.

### Admission requirements

Australian bachelor degree or recognised equivalent and NAATI professional accreditation as a translator (or overseas equivalent) OR postgraduate level award in translating and interpreting with at least a credit in one core advanced practical translation subject.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$23,680

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 7.0 overall, 6.5 in each band

# Engineering and information technology

Macquarie University is where innovation comes to life. You'll learn theories, but most importantly you'll understand how to put them into practice.

Macquarie researchers helped develop the ground-breaking chip technology in today's high speed Wi-Fi and we remain at the forefront of next generation wireless technology.

With our unique combination of world-class researchers, practical interdisciplinary degrees and close partnerships with global companies co-located with us in Sydney's high-technology precinct, our engineering and information technology graduates have an edge in the workforce.

## 3 reasons to choose engineering and information technology at Macquarie

- 1 Leaders in **Wi-Fi communication** work with us on next-generation high-speed wireless technology research
- 2 A wide range of study options with a **focus on practical applications** reflecting the knowledge and skills employers require
- 3 A ground-breaking postgraduate degree **integrating engineering with business management** to give you the best career prospects

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

Master of Data Science		1.5 years full-time
<p>Data science is an emerging field that integrates specialised computational and statistical techniques to extract and analyse large amounts of data. The Master of Data Science will provide you with the range of technical skills necessary to pursue a career in data science.</p> <p><b>Who should apply:</b> Those wanting to hone their skills in information technology, statistics or business, or multidisciplinary professionals seeking to consolidate and advance their existing skills with the latest in best practice.</p> <p><b>Subjects you will study include:</b> Applications of Data Science, Big Data Technologies, Data Mining.</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.75.</p> <p><b>Intakes (2014)</b> Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$32,608</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS registration being sought for this program</p>

Master of Engineering Management		1 year full-time
<p>Co-taught by the University's highly respected Macquarie Graduate School of Management (MGSM), this degree provides an accelerated pathway into engineering management for professional engineers. It is intended for those who are seeking a postgraduate management degree with an engineering and information technology perspective.</p> <p><b>Who should apply:</b> Early career engineers looking to accelerate their career or those from a related discipline who are seeking to develop their skills in management and strategic leadership.</p> <p><b>Subjects you will study include:</b> Accounting for Management, Engineering Management Thesis and elective options including Corporate Environmental Management and Operations Management.</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent. Minimum two years relevant work experience.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$27,520</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 077148K</p>
		 <a href="https://courses.mq.edu.au/intl/MEngMgt">courses.mq.edu.au/intl/MEngMgt</a>

Master of Information Technology		1 year full-time
<p>The Master of Information Technology gives you the opportunity to strengthen your understanding of underlying principles by applying them to practical, industry-focused problems. The knowledge and skills you gain in the coursework units is consolidated in a project unit in a leading-edge topic.</p> <p><b>Who should apply:</b> Information technology graduates who are seeking to hone their skills in specialist areas, or experienced IT professionals who are seeking to consolidate and advance their existing skills with the latest in best practice.</p> <p><b>Subjects you will study include:</b> You can choose to specialise in Information Systems; Management; Security and Network Management; or Web Engineering</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent with substantial computing component and GPA of 2.75; OR recognised bachelor degree in a non-ICT discipline and three years of relevant work experience; OR completion of a graduate diploma in an ICT discipline.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$32,608</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 044928K</p>

# Environment

Climate and environment is the issue of the age and demand for top-quality scientists is high. At Macquarie you will study with people who are using their knowledge to make an impact.

Macquarie is home to environmental researchers and academics who are internationally renowned. Our environmental sciences research is well above world standard, having received a 5 out of 5 rating in the Australian Government's 2012 Excellence in Research for Australia (ERA) evaluation.

Our approach combines science with an understanding of social, political and human impacts and has earned Macquarie global recognition for our environmental sciences and ecology research.

## 3 reasons to choose environment at Macquarie

- 1 We offer opportunities to **develop field skills complemented by laboratory training** and professional exposure
- 2 Your **teachers are leading researchers**, highly respected by the national and international research community
- 3 Our holistic approach means **you're able to combine science with an understanding of social, political and human impacts**

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Environment

1.5 years full-time

The Master of Environment is an interdisciplinary degree that offers specialisations in Environmental Management, Environmental Science and Environmental Studies.

### Who should apply:

Students wanting to move into the environmental profession or those already working in the area seeking to expand their skills and knowledge.

### Subjects you can study include:

Attitudes to the Environment, Education for Sustainable Development, Environmental Law and Policy, Environmental Measurement and Analysis, Management of Degraded Environments, Social Impact Assessment and Cross Cultural Negotiation.

### Admission requirements

Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$31,392

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 6.5 overall, 6.0 in each band

CRICOS code 077558C

Postgraduate Diploma of Environment	1 year full-time	CRICOS 077559B

## Master of Environment specialisations

### Environmental Management

Offers an interdisciplinary approach to environmental management. A major focus of the degree is to teach you how to work with people from different disciplinary perspectives in order to find environmental solutions. You will work on environmental consultancy projects for real clients through the Environmental Management Practice unit.

### Environmental Science

Offers a broad range of science subjects covering ecology, biodiversity, conservation, air and water pollution, geomorphology, land management and environmental health. Features specific units of applied interdisciplinary study such as Science and Management of Degraded Environments, and Pollution Control and Waste Management.

### Environmental Studies

This specialisation is the broadest and most flexible within the Master of Environment. It is designed for those who wish to tailor their degree to add depth or cover new areas to suit their specific professional needs. It also suits those who wish to experience a broader scope in the interdisciplinary field of environmental studies.

## Master of Environmental Law

1 year full-time

Provides comprehensive knowledge of environmental laws in context, fostering a broad understanding of this dynamic area. It gives you the opportunity to join world-class researchers in environmental law at the Centre for International and Environmental Law where you can participate in conferences, workshops and research projects as part of your studies.

### Who should apply:

Both lawyers and non-lawyers such as business professionals, environmental consultants, workers in the resource sector and lawyers working in the environmental law and government law areas, or those wishing to work in these areas.

### Subjects you will study include:

Environmental Law and Sustainable Development; Environmental Litigation and Mediation; Pollution, Law and Environmental Management.

### Admission requirements

Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$30,432

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 6.5 overall, 6.0 in each band

CRICOS code 073732D

[courses.mq.edu.au/intl/MEnvLaw](https://courses.mq.edu.au/intl/MEnvLaw)

Master of Environmental Planning	2 years full-time
<p>The Master of Environmental Planning is a holistic, interdisciplinary and flexible degree. It develops professional skills and knowledge in matters important to planning practice, while allowing you to pursue your special interests, such as environmental and resources management, sustainable development in urban and non-urban planning contexts, environmental law and policy, and social impact assessment.</p> <p><b>Who should apply:</b> Those working in, and wanting to move into, the planning area or seeking to gain perspective or an interdisciplinary approach to environmental planning.</p> <p><b>Subjects you will study include:</b> Attitudes to the Environment, Environmental Economics, Environmental Planning, Heritage and its Management, Local Government Approval Process, Sustainable Urban Regions.</p>	<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$31,104</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 077561G</p> <p> <a href="https://courses.mq.edu.au/intl/MEnvPlan">courses.mq.edu.au/intl/MEnvPlan</a></p>
Master of International Environmental Law	1 year full-time
<p>This degree provides international and comparative studies across a wide range of environmental law topics. You will explore the evolution of international environmental law, its implementation in response to changing scientific knowledge and public pressure and the interplay between law, science, commerce, planning and policy.</p> <p><b>Who should apply:</b> Both lawyers and non-lawyers such as environmental consultants, industry and public service professionals, workers in the resource sector and lawyers working in environmental law and government law areas, or those wishing to work in these areas.</p> <p><b>Subjects you will study include:</b> Climate Change Law, Comparative Environmental Law, International Law. You can also choose from elective units including Law, Globalisation and Cultural Transformations; Trade and Environmental Law; Water and Marine Biodiversity Law.</p>	<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$30,432</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 073731E</p> <p> <a href="https://courses.mq.edu.au/intl/MIntEnvLaw">courses.mq.edu.au/intl/MIntEnvLaw</a></p>
Master of Marine Science and Management	1 year full-time
<p>This innovative degree is offered in partnership with the Sydney Institute of Marine Science (SIMS), the University of Technology Sydney, the University of New South Wales and the University of Sydney. This interdisciplinary and cross-institutional degree is unique in Australia, and gives you in-depth knowledge in a range of disciplines in marine science and management.</p> <p><b>Who should apply:</b> This degree is suitable for students seeking a broad base in marine science as qualification for entry into the field including those wishing to gain new and specialised skills in a range of theoretical and practical applications. It is also suitable for professionals looking to extend their area of expertise and acquire knowledge of managerial practices.</p> <p><b>Subjects you will study include:</b> Coastal Management, Conservation of Australasian Wildlife, Environmental Measurement and Analysis, Topics in Australian Marine Science.</p>	<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$31,104</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 074882D</p> <p> <a href="https://courses.mq.edu.au/intl/MMarSciMgt">courses.mq.edu.au/intl/MMarSciMgt</a></p>

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

Master of Science specialising in Biodiversity Conservation		1 year full-time
<p>This degree focuses on the theory, practice and ethics of biodiversity conservation, from the level of wildlife populations to entire ecosystems. An emphasis is placed on the unique biodiversity of Australia and its connections with the southern continents and the rest of the globe. This course gives you the skills and outlook necessary for employment in biological conservation at the management level and/or research.</p> <p><b>Who should apply:</b> Biological sciences graduates, or environment and conservation professionals seeking further education in conservation biology.</p> <p><b>Subjects you will study include:</b> Attitudes to the Environment, Biodiversity Conservation, Environmental Measurement and Analysis.</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$30,656</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 016926M</p> <p> <a href="https://courses.mq.edu.au/intl/MSci">courses.mq.edu.au/intl/MSci</a></p>

Master of Science specialising in Environmental Health		1 year full-time
<p>Environmental health is concerned with the aspects of human health determined by physical, chemical, biological and social factors in the environment. This interdisciplinary degree offers an environmental focus on public health and includes the analysis, control and prevention of adverse environmental impacts, as well as the enhancement of those aspects of the environment that can improve human health.</p> <p><b>Who should apply:</b> Those already working in an environmental or health role, or others wishing to enter from a related field.</p> <p><b>Subjects you can study include:</b> Environmental Health, Health Policy, and electives including Corporate Environmental Management, Organisational Change for Sustainability, Social Impact Assessment and Cross Cultural Negotiation.</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$30,656</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 016926M</p> <p> <a href="https://courses.mq.edu.au/intl/MSci">courses.mq.edu.au/intl/MSci</a></p>

Master of Science specialising in Remote Sensing and GIS		1 year full-time
<p>This degree provides an introduction to the principles of remote sensing (both optical and radar sensors) and geographic information systems (GIS), as well as their extensive range of applications in agriculture, archaeology, business, conservation, disaster mitigation, environmental management, forestry, health services, mining, natural resource management, urban planning, sustainable development and transportation management.</p> <p><b>Who should apply:</b> Students interested in the theory and skills necessary for employment in the fields of remote sensing and GIS, whether in research, at a spatial data analysis or management level.</p> <p><b>Subjects you will study include:</b> Environmental Applications of GIS and Remote Sensing, Introduction to Geographic Information Science for Postgraduates, Introduction to Remote Sensing, Science in Environmental Management.</p>		<p><b>Admission requirements</b> Australian bachelor degree or recognised equivalent in relevant field. Minimum GPA of 2.50.</p> <p><b>Intakes (2014)</b> Session 1 (March), Session 2 (August)</p> <p><b>2014 estimated annual fee (AUD)</b> \$30,656</p> <p><b>English requirements</b> (see page 54 for other accepted language tests) IELTS minimum 6.5 overall, 6.0 in each band CRICOS code 016926M</p> <p> <a href="https://courses.mq.edu.au/intl/MSci">courses.mq.edu.au/intl/MSci</a></p>

# Science

Study with world-renowned researchers and make your mark with postgraduate study in science at Macquarie. Science at Macquarie is the science of innovation with practical everyday benefits.

Macquarie's Earth sciences and physical sciences research are well above world standard, each having received a 5 out of 5 rating in the Australian Government's 2012 Excellence in Research for Australia (ERA) evaluation. Biological sciences also received 4 out of 5, rating it above world standard.

Our practical focus gives you the knowledge and skills employers want, with our recently upgraded digital science laboratories among the best in the Asia-Pacific.

## 3 reasons to choose science at Macquarie

- 1 Our digital science laboratories are considered to be among the **best in the Asia-Pacific region**
- 2 You will be taught by **award-winning teachers**, many of whom are also internationally recognised researchers
- 3 We offer a **wide range of study options with a focus on practical applications** that reflect the knowledge and skills employers require

Follow course web links for full course structure, recommended prior knowledge, graduate profiles and more

## Master of Applied Statistics

1 year full-time

The Master of Applied Statistics is designed to train you for employment as a statistician. Specialised study is also available in the areas of biostatistics, epidemiological methods, generalised linear models, time series and stochastic finance. Also available by distance.

### Who should apply:

Students who wish to work as statisticians or students who are already working in other roles which require a deeper knowledge of statistics.

### Subjects you will study include:

A statistics project and your choice of subjects including: Data Mining, Statistical Theory, Stochastic Finance and Survival Analysis.

### Admission requirements

Australian bachelor degree or recognised equivalent in statistics. Minimum GPA of 2.50.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$31,872

### English requirements

(see page 54 for other accepted language tests)

IELTS minimum 6.5 overall, 6.0 in each band

## Master of Biotechnology

1.5 years full-time

The Master of Biotechnology gives you a core competency in advanced molecular biotechnology approaches including molecular biology, protein biochemistry, proteomics and applied microbiology. In addition it offers you advanced skills in critical thinking, experimental design and writing for peer-reviewed scientific literature.

### Who should apply:

Those already working in or wanting to advance in the biotechnology area, and those wanting to gain an understanding of a multidisciplinary approach to biotechnology practice and research.

### Subjects you will study include:

Bioethics and Biotechnology, Functional Proteomics, Molecular and Medical Biotechnology, Molecular Biology and Genomics, Protein Discovery and Analysis.

### Admission requirements

Australian Bachelor of Science or recognised equivalent in relevant field with a substantial laboratory component. Minimum GPA of 2.70.

### Intakes (2014)

Session 1 (March), Session 2 (August)

### 2014 estimated annual fee (AUD)

\$33,088

### English requirements

# Higher degree research at Macquarie

As one of Australia's premier teaching and research institutions, Macquarie University attracts talented researchers from around the world who are rewarded with an exceptional experience of research training in an environment of the highest quality.

Macquarie's excellence in research is reflected in the Australian Government's Excellence in Research for Australia (ERA) evaluation, which ranked several of Macquarie's research disciplines at 4 out of 5 or above, indicating research at above, or well above, world standard.

Recent investments of more than \$1 billion in facilities and infrastructure ensure our research staff and students have access to the best technology and facilities, to foster creative innovation which has continual global impact.

A major feature of our research program is our cotutelle and joint PhD arrangements which facilitate partnerships between Macquarie and leading universities around the world. The program continues to grow, increasing opportunities for international research collaboration with many world-leading research universities.

To date, the University has joint doctoral supervision agreements with 99 universities in 28 countries. Facilitating co-enrolment and co-supervision of doctoral students, the programs enhance international research collaboration between Macquarie and leading research universities.

By undertaking a research degree at Macquarie you will have the opportunity to make an important contribution to the development of new knowledge in society, work alongside some of the world's leading researchers, and access some of the region's most outstanding facilities.

Detailed information for students looking to complete a Doctor of Philosophy (PhD) or Master of Philosophy (MPhil) program at Macquarie is available on the Higher Degree Research website.

Be part of our cutting-edge research

## Macquarie's research training pathway

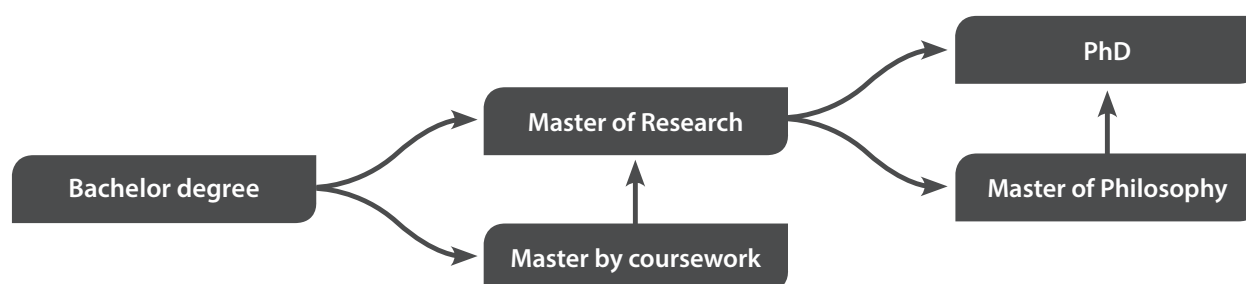

In 2013, Macquarie University introduced the Master of Research, making it the first Australian university to fully align with European, North American and Asian research training qualifications.

Consistent with the Bologna model, the Master of Research is a purpose-designed pathway to a PhD that provides structured research coursework, communication skills and research methods courses to enhance your research skills. It provides the opportunity for you to plan a major research project and undertake a feasibility study for the project.

The program gives you the best start for your research career. It provides greater background in your discipline and intense highly structured research training to give you the skills to approach your PhD with confidence and finish sooner.

Macquarie's Master of Research lets you:

- gain in-depth research expertise
- increase your international opportunities
- find a supervisor with shared research interests
- develop a doctoral research proposal for your supervisor

### Master of Research

2 years full-time

In the first year of the Master of Research you will study eight advanced coursework units including research communications, a research frontiers unit and units of advanced disciplinary content.

In the second year you will focus on research preparation and experience in a specific research topic at the sub-discipline level.

The Master of Research is available in all of Macquarie's research areas.

#### Entry requirements

A bachelor degree from a recognised institution, at a specified level of performance, usually the equivalent of a credit average (65 per cent) in your final year (or 300-level). Some disciplines may have extra admission requirements such as a portfolio of work or a higher level of performance of bachelor study.

#### Intakes (2014)

Session 1 (March)

#### 2014 estimated annual fee

\$26,421 – \$30,111 (depending on discipline)

#### English language requirements

IELTS minimum 6.5 overall, 6.0 in each section

CRICOS code 076986B

# How to apply

## Your future starts here

There are five main steps when applying for admission to a postgraduate degree at Macquarie University.

### Step 1

Choose a Macquarie degree

### Step 2

Check the entry requirements

### Step 3

Submit your application

### Step 4

Accept your offer

### Step 5

Prepare for your arrival at Macquarie

## Step 1

### Choose a Macquarie degree

Use this guide to find a degree to suit your interests and career goals. You may wish to visit our online coursefinder ([courses.mq.edu.au](http://courses.mq.edu.au)) to see the program's full structure or read profiles of academic staff, successful graduates and current students.

## Step 2

### Check the entry requirements

Each postgraduate course at Macquarie has specific academic and English language requirements that you need to fulfil in order to be considered for entry. The requirements for each course are detailed in this guide and in our online coursefinder ([courses.mq.edu.au](http://courses.mq.edu.au)).

Note: At Macquarie University, and many other Australian universities, GPAs are calculated based on a maximum GPA of 4.00.

Remember, courses and entry requirements can change from time-to-time and we recommend checking the latest information online before you apply.

## Step 3

### Submit your application

Apply online using our secure Online Application Manager [admissions.mq.edu.au](http://admissions.mq.edu.au). By applying online, your application will be prioritised and you can save and update your application until you are ready to submit it.

It will take approximately 15–20 minutes to complete your application online, provided you have the relevant documents ready to upload.

If you wish to submit your application by post, you can download an application form at [mq.edu.au/future\\_students/international/how\\_to\\_apply](http://mq.edu.au/future_students/international/how_to_apply)

Alternatively, you may choose to apply to Macquarie via an authorised representative in your home country or at one of our regular international events. You can find a representative or event in your country at [mq.edu.au/rep-search](http://mq.edu.au/rep-search)

### What documents will I need?

You will need to provide supporting documents with your application, including relevant academic transcripts and English language results. Documents in your native language should be professionally translated to English.

Any documents you include in your online application need to be certified as true copies of the originals. People who are authorised to certify your documents include:

- your current or previous education institution
- an authorised Macquarie University representative
- Macquarie University Admissions or Student Enquiries staff members
- a government official
- Justice of the Peace

You can find other examples and more information on translating and certifying documents at [mq.edu.au/future\\_students/international/how\\_to\\_apply/certified\\_documents](http://mq.edu.au/future_students/international/how_to_apply/certified_documents)

### Credit for previous studies

If you have studied at another tertiary institution, you may be eligible for credit towards your Macquarie degree, which will be awarded in the form of Macquarie credit points. To request credit for previous study or a credit transfer from another institution, you will need to provide documentary evidence of your previous study when you apply.

## Step 4

### Accept your offer

If you qualify for entry, you will receive an Offer of Study by email. Read all the information in your offer letter carefully – it will include the dates for your compulsory orientation, as well as the conditions you need to be aware of before accepting your offer.

#### Your commencement and OSHC fees

Your offer letter will provide details of the tuition fees that need to be paid when you accept your offer. The tuition fees for your first academic session are paid in the form of a Commencement Fee and your compulsory Overseas Student Health Cover (OSHC) fees are also payable at this time.

If your first session's tuition fees are greater than your commencement fee, you will be required to pay the balance of your fees during your enrolment week.

## Securing your student visa

Once you have signed and returned the relevant documents in your offer letter and have paid your Commencement and OSHC fees, we will issue you with an electronic Confirmation of Enrolment (eCoE).

Use your eCoE to apply for a student visa via an Australian Embassy, High Commission or the Department of Immigration and Citizenship.

All student visas have mandatory conditions, including that you must remain enrolled, you cannot undertake work until you commence your studies and you cannot change institution within the first six calendar months of your program.

To find out more about student visa conditions and application procedures, refer to the Australian Department of Immigration and Citizenship (DIAC) website [immi.gov.au/students](http://immi.gov.au/students)

## Step 5

### Prepare for your arrival at Macquarie

Your offer letter will include the date of your compulsory orientation and enrolment sessions, which are usually held in the week prior to the commencement of classes. Make sure to arrange your travel dates so that you can attend these sessions, as they will provide you with a much smoother start to Australian university life.

We recommend that you research your unit (subject) and class timetable options prior to enrolment. Both are available online at [handbook.mq.edu.au](http://handbook.mq.edu.au) and [timetables.mq.edu.au](http://timetables.mq.edu.au) in the months prior to the commencement of classes.

It's also important to get things like accommodation organised well before your arrival in Sydney. Macquarie's accommodation service can help you arrange your on- or off-campus accommodation, as well as booking your complimentary airport pickup. Visit [accommodation.mq.edu.au](http://accommodation.mq.edu.au)

A pre-departure checklist is available on our website to remind you of the things you'll need to organise before coming to Australia [mq.edu.au/travel-checklist](http://mq.edu.au/travel-checklist)

## Apply early!

Remember that places are limited in all degrees, especially popular degrees. It is a good idea to apply at least two to three months before your commencement session begins, in order to avoid disappointment and to give you enough time to organise your student visa. You can find academic session, orientation and enrolment dates below.

## Important dates 2014

### Session 1

Compulsory orientation and enrolment for new international students	20 – 28 February
Classes commence	3 March
Mid-session break	12 – 27 April
Exams commence	16 June

### Session 2

Compulsory orientation and enrolment for new international students	24 July – 1 August
Classes commence	4 August
Mid-session break	20 September – 6 October
Exams commence	17 November

Find more important dates at [mq.edu.au/international-dates](http://mq.edu.au/international-dates)

# English language requirements

Your English language proficiency and academic results will determine whether you are eligible for entry to a Macquarie University postgraduate degree.

All students studying at Macquarie need to provide proof of English language proficiency. You can demonstrate your proficiency in three different ways.

## OPTION 1: Complete an approved English language test

For most courses at Macquarie, the following English language test results will qualify you as proficient in English. Degrees with higher English language requirements are listed in this booklet and on the website link listed at the bottom of this page.

Test/Program	Test Score
IELTS (Academic English only)	Minimum 6.5 overall, with minimum 6.0 in each section
TOEFL (internet based test)	Minimum 83 overall, with 12 Listening, 13 Reading, 21 Writing, 18 Speaking
Pearson Test of English (PTE)	Minimum 64 overall, with minimum 57 in all communicative skills

## OPTION 2: Study English at Macquarie University English Language Centre

### ENGLISH LANGUAGE CENTRE

By studying English at the Macquarie University English Language Centre (ELC), you will get the best possible preparation for your Macquarie degree.

The ELC provides discipline-specific University Entry English Preparation Programs based on the academic requirements and subjects of your Macquarie degree. By tailoring your English learning to your degree and chosen career, you can be more confident of success at university and in the workplace.

ELC graduates receive ongoing language support throughout their time at Macquarie. In 2011, **ELC graduates achieved a 15 per cent higher GPA in their first session** at Macquarie compared to students coming from other major English language pathways.

As an ELC student you will enjoy access to all of Macquarie's first-class facilities and vibrant campus life, making your transition to degree study easier.

The ELC runs one of the largest IELTS test centres in Australia, and offers a variety of IELTS test preparation courses both online and face-to-face.

ELC also partners with several carefully selected education providers to deliver our quality English programs in international locations including Turkey, Jordan, Bangladesh and Vietnam.

Visit [elc.mq.edu.au](http://elc.mq.edu.au)

## OPTION 3: Hold an approved qualification

If you have completed senior secondary high school study or at least one year of full-time university study in one of the following countries, you will be deemed to have met the standard English language requirements that apply to most Macquarie courses.

The qualification must have been taught in English AND completed within two years of your commencement at Macquarie.

American Samoa	Jamaica	Solomon Islands
Australia	Kenya	South Africa
Botswana	Lesotho	Tonga
Canada	Liberia	Trinidad and Tobago
Fiji	New Zealand	United Kingdom
Ghana	Nigeria	USA
Guyana	Papua New Guinea	Zambia
Ireland	Singapore	Zimbabwe

The following qualifications are also accepted. Minimum scores and required subjects may apply – see our website for more details.

Denmark	Upper secondary school
Finland	Upper secondary school
Germany	Abitur and DAAD
Hong Kong	Advanced Level Examination Diploma of Secondary Education
Malaysia	STPM
Netherlands	VWO (pre-university education) HAVO
Norway	Upper secondary school
Sweden	Upper secondary school

CPE (Cambridge English: Proficiency)

International Baccalaureate (IB)

AQF Certificate IV/Advanced Certificate (including AQF Certificate IV in English for Academic Purposes)

Macquarie also accepts English language qualifications from approved ELICOS providers in Australia. Visit our website for a list of providers and required scores.
